

# Entuity® Network Analytics (ENA) for BMC TrueSight Operations Management v17.0 Patch Notification

December 15th 2021

# Technical Bulletin December 15, 2021

Version 2021.12.15

We are pleased to confirm the availability of **patch P16** for **ENA v17.0**, which has now been certified for customer use; further details of the benefits to be gained from this patch are set out in the table below.

## Latest Patch Details

### Improvements and Fixes

Functional Area	Platform(s)	Description
BMC Atrium Integration	All	Fixed an issue whereby BMC Atrium exporter would fail to run due to a lack of support from a third party CMDB Java library.
Security Updates	All	Update to the Log4j v2 library to fix the CVE-2021-44228 vulnerability.

## Notes

**Important:** Entuity recommends upgrading to this latest patch as soon as possible in order to fix the CVE-2021-44228 vulnerability in the Log4j v2 library.

ENA is supplied with the RSSO client version 20.02.00. Your RSSO client version should not be greater than the RSSO server version. Please contact Entuity support if your RSSO server version is less than 20.x in order to obtain a compatible RSSO client.

Please refer to the [Knowledge Base](#) on the Entuity Help Center for help and information on functionality added in this patch.

Entuity recommends that all servers in a multi-server configuration run the same patch version.

## Downloading Patches

Patches for all supported platforms are available from the Entuity FTP site (<ftp.entuity.com/>), and the Product Downloads section of the BMC Support Central site (<https://www.bmc.com/support/support-central.html>).

The Entuity FTP site is arranged into separate directories for each version, operating platform and patch number. Each directory also includes a readme file and any other relevant documents, including checksums, which you are advised to verify before applying each patch. Patches must always be applied via the Patch Installer, which will ensure they are applied in a consistent and reliable manner.

Access to the BMC patches on the Entuity FTP site requires a valid username and password that can be obtained from BMC Support. For added security, the FTP site requires connection via SFTP.
