September 2nd 2019

Technical Note September 2nd, 2019

Operating system support in ENA v18.0

Entuity has currently scheduled ENA v18.0 for release at the end of 2019. Please note that from ENA v18.0 onwards, ENA will only support the two most recent versions of each operating system:

- Red Hat Enterprise Linux ES version 7.
- Red Hat Enterprise Linux ES version 8.
- Oracle Linux 7.
- Oracle Linux 8.
- Windows Server 2016.
- Windows Server 2019.

This means that support for RedHat 6, Oracle 6 and Windows Server 2012 will be dropped from ENA v18.0 onwards.

Please contact Entuity Support if you have any concerns.
